

ADVANTAGES of the WATERMAID SYSTEM

Watermaid's proven salt chlorination system has many advantages over other forms of chlorine chemical dosing or automatic chlorine feed devices, ionisers or ozone generators.

- ◆ The **Watermaid** chlorination system drastically reduces the cost of purchasing chlorine chemicals and or sanitizing agents.
- ◆ The **Watermaid** chlorination system produces "on-site chlorine" and is about 1/6 the cost of purchasing liquid or granular chlorine. (for the same chlorine amounts)
- ◆ The **Watermaid** chlorination system replaces the laborious task of manually purchasing chlorine and adding it to the swimming pool everyday.
- ◆ The **Watermaid** chlorination system minimizes the risks involved in the handling and storing of dangerous chlorine chemicals - A blessing for families with young children.
- ◆ The **Watermaid** system disperses chlorine throughout the pool, more evenly and after the water is filtered via the circulation from the pump.
- ◆ With the **Watermaid** chlorination system, there is no need to alter any of the existing pool equipment. The Watermaid unit may be installed with the installation of new equipment (in the construction of a new pool) or simply added afterwards.
- ◆ The **Watermaid** will self chlorinate your swimming pool. **Even when you are on Holidays!**
- ◆ The **Watermaid** salt chlorination system does not add impurities to the swimming pool. All other forms of pool chlorination contain impurities, which not only cause discomfort to swimmers but also damages the pool!
- ◆ Using the **Watermaid** salt chlorination system and swimming in mild salt water is **HEALTHIER and SAFER**. - According to an Australian, State Health commission report "*Childhood drownings in Sydney*": Salt water is **safer** than fresh water as... "*Death occurs twice as fast in fresh water than in saltwater*".
- ◆ With the **Watermaid** salt chlorination system, because the salinity in the pool is almost equal to that which is in your eyes and the fact that chlorine is dispersed throughout the pool more evenly, **You do not get - SORE STINGING RED EYES.**
- ◆ With the **Watermaid** salt chlorination system, **SWIMMERS DO NOT SUFFER FROM SKIN IRRITATIONS.** People around the world bathe and swim in mild saline water for health benefits. People who have sensitive skin or suffer from skin conditions are not affected by chlorine chemicals as the chlorine is dispersed by the **Watermaid** system more evenly and over a longer period of time.
- ◆ The **Watermaid** salt chlorination system and swimming in mild saline water has been proven to be advantageous for **Asthmatics** and **Allergy Prone swimmers.**
- ◆ With the **Watermaid** chlorination system there is **NO CHLORINE TASTE, SMELL or FEEL.**
